

# ERIA Evaluation Overview and Instructions 2009-10

All evaluation materials are posted at <http://www.calstat.org/effectivereading.html>. These are the same materials which you have used in the past, with the exceptions noted below:

## **Please complete these three data collection items each fall and spring:**

### 1. Site Action Plan (SAP)

#### **Change: Abbreviated SAP for Implementing Sites:**

After the at least one year of fully implementing ERIA, sites may be eligible to complete the abbreviated Site Action Plan (item 1B, attached), instead of a full-length Site Action Plan. Consult your regional or district coordinator if interested in this option.

### 2. Team Implementation Checklist (TIC)

Continue to use the Excel file that your site has been using. If you need help locating a copy of your site's TIC, contact [eria.support@calstat.org](mailto:eria.support@calstat.org).

### 3. Oral Reading Fluency Measures for struggling students

Use either the form on the CalSTAT website or your own spreadsheet, as is most convenient (ensuring that the required data elements are included).

## **Other changes from previous years:**

- CalSTAT is no longer collecting data from the San Diego Quick. You may continue using this assessment if it is part of your site's ongoing practices.
- CalSTAT is no longer collecting data in the ERIA Trending Program. You may continue using this tool if it is part of your site's ongoing practices. CalSTAT will collect CST results from districts or CDE as needed.

In the **Fall, by October 31<sup>st</sup>**, submit these materials to your regional coordinator:

- completed SAP
- updated TIC
- baseline Oral Reading Fluency measures for struggling students

In the **Spring, By May 31<sup>st</sup>**, submit these materials to your regional coordinator:

- updated SAP
- updated TIC
- final Oral Reading Fluency measures for struggling students
